

# Zelda

Extra Life 2018

Zelda is an especially fluffy black tressym with large yellow eyes and long tufts of fur sticking out of her ears. Empathetic Zelda always seems to know when someone needs cuddles and has no qualms about leaving black hairs all over your traveler's clothes, armor, backpack, and everything else. It could be an innate tressym sense, or it could be the MYSTERIOUS THIRD EYE that occasionally blinks open on her forehead and stares into your soul. Once per day, Zelda can use her third eye to discern the alignment of a creature she can see.

Zelda use the statistics for a tressym from Storm King's Thunder (except where noted). The owner of a certificate may re-summon Zelda using find familiar as normal, should she be dismissed or reduced to 0 hit points.
